LTTE claims Operation Frog Jump a success

OPERATION FROG

Jump was the code name given by the Liberation Tigers of Tamil Eelam (LTTE) for their attack at Pooneryn last week.

The LTTE has announced that the operation was successful with the capture of large amount of weapons and killing hundreds of sol-

diers at Pooneryn.

According to reports from Jaffna this is the first ever operation that the LTTE has codenamed.

The LTTE's clandestine radio 'Voice of Tigers' announced that the security forces were plan-

By Ananth Palakidnar

ning to launch a massive operation from Pooneryn to capture Jaffna and the Operation Frog Jump has thwarted the plan.

The LTTE transmission also keeps on announcing the weapons captured from Pooneryn and paying tributes to

their cadres who had lost their lives in the operation.

Meanwhile, elaborate arrangements are being made in the LTTE controlled areas to mark their 'Great Heroes' day on November 26, the 39th birthday of LTTE

supremo V. Prabhakaran.

The Jaffna reports also said that the security for Velupillai Prabhakaran has been tightened. Earlier Prabhakaran had only three security rings. Currently this has been increased to five. The cadres who immediately surround Prabhakaran are from his elite Black Tiger'squad.
